Gaining Momentum

The Lyrics

GROOVE

Turn off the lights. The sky is on fire.
Keep the mood alive tonight.
Out of the dark. Unashamed desire.
We can burn like stars tonight.
Get out of your head...

You got to groove
Groove! Keep on moving! Groove!
You got to groove. Keep on moving!
Keep the mood alive tonight.

I know what you like when the moon starts rising
And the night looks ever-bright (*A star is on fire*)
Turn up the bass and embrace the feeling
Take you to another high (*Out of desire*)

ANYMORE

Don't you touch me anymore!
Don't you hurt anyone... Anymore!

LONDON RAVE

(Instrumental)

WATER SEEPS AWAY

Gladly alone. You don't need our company. You calculate everything, except yourself.
We're just some extras in your universe. You are rich... in experience, you claim.

Water seeps away in the desert of our time.
You never care. But it's your life... but it's your life passing by.
(Wasting time, wasting time)

The best know how... but it's your life passing by.
Only in your circles! What you call friends might be useful at best. Just like all the rest.

Water seeps away in the desert of our time.
You never care. But it's your life... but it's your life passing by.
(Wasting time... wasting time...wasting time... wasting time)
